Mobile spa takes pampering on the road

New business launches in the Poconos June 15

Fast gaining popularity, mobile spas offer services to customers in the comfort of their homes. "Spa parties" treat a group of friends to the luxury of a spa treatment without the hassle of traveling to a day spa location.

On June 15, C.B.N.'s Mobile Day Spa will expand its services into the northeastern Pennsylvania area. This mobile

day spa caters to those who want the convenience of spa treatments in the comfort of their own home, office or location of their choice.

To celebrate this expansion, all services will be discounted by 5 percent through July 31.

C.B.N. Mobile Day Spa offers skin analysis, facials, hand treatments and massage

services. Packages can be customized.
